

Husqvarna TS 342

The TS 342 is a high spec tractor designed for landowners who frequently need an efficient machine on really large areas all year round. It is a powerful tractor with side ejection for demanding lawn care. Locking differential gives superior traction in slopes and slippery conditions. Pedal-operated hydrostatic transmission and cast front axle means convenient and trouble-free operation. Driven by a powerful Kawasaki, twin cylinder engine. ClearCut[™] fabricated cutting deck which not only offers rock solid durability but also industry leading performance and cut quality.

Automatic locking differential

The standard automatic locking differential senses wheel slip and locks the rear wheels for increased traction.

Electric engagement of cutting blade/s

Easy engagement of cutting blade/s; simply pull the switch on the control panel.

ClearCut™ fabricated cutting deck

The new fabricated design features welded 10 gauge steel construction with additional welded reinforcement strips for maximum durability

Pedal-operated hydrostatic transmission

Speed and direction are managed by pedals, which lets you keep both hands on the steering wheel, for optimum driving control.

FEATURES

- ClearCut[™] fabricated cutting deck
- Electric engagement of cutting blade/s
- Automatic locking differential
- Pedal-operated hydrostatic transmission
- High quality tyres for longer tyre life and improved traction.
- Adjustable seat, while seated
- Air Induction; excellent cutting performance
- Armrests for improved comfort
- Cast front axle for superiour stability
- Durable, cast iron spindle housings
- Cruise control for comfortable operation
- Easy-access fuel cap
- High Back Seat
- Step-through for easy mounting
- Hour meter with service minder
- Large, wide rear tyres for improved traction
- Gives over 50% larger lighted area compared to traditional incandescent lights.
- Robust and durable steel chassis
- Fuel level window
- Brushguard for protection of the hood
- Deck Wash Port
- BioClip® kit/cover available as accessory
- Ergonomic steering wheel
- Collector available as accessory
- Easy-access cutting height adjustment
- Cup holder for refreshments while mowing
- Dual draglinks for improved manoeuvrability
- Powder-coated deck for improved durability
- Reverse Operating System (ROS) for safety
- Safety switch under seat
- Water hose connection for easy cleaning
- Can be fitted with year-round accessories
- Deck Wash Port
- Cup holder for refreshments while mowing
- · Easy-access fuel cap
- Easy-access cutting height adjustment
- Durable, cast iron spindle housings
- Air Induction; excellent cutting performance
- Anti-scalp wheels

Tachnical Spacificatio

- Fuel level window
- Safety switch under seat
- Cast aluminium heavy duty spindle
- SmartSwitch[™] for key-less operation
- Cast front axle for superiour stability
- Water hose connection for easy cleaning
- Powder-coated deck for improved durability
- BioClip® kit/cover available as accessory
- Automatic locking differential
- Large, wide rear tyres for improved traction
- Air Induction; excellent cutting performance
- Easy to get operating with automatic choke.
- U-Cut[™] for improved manoeuvrability
- Gives over 50% larger lighted area compared to traditional incandescent lights.
- Pedal-operated hydrostatic transmission
- Battery indicator with charger connection
- Can be fitted with year-round accessories
- Collector available as accessory
- Step-through for easy mounting
- Brushguard for protection of the hood
- Ergonomic steering wheel
- High Back Seat
- Ergonomic design
- Briggs & Stratton Vanguard V-Twin
- Large integrated collector; easy to empty
- Robust and durable steel chassis
- Reinforced cutting deck for improved durability
- Endurance V-Twin Engine
- Hour meter with service minder
- Adjustable seat, while seated
- Adjustable seat, while seated
- Armrests for improved comfort
- Optional collector and BioClip® accessories
- High quality tyres for longer tyre life and improved traction.
- Cruise control for comfortable operation
- Electric engagement of cutting blade/s
- ClearCut[™] fabricated cutting deck
- Dual draglinks for improved manoeuvrability
- Reverse Operating System (ROS) for safety
